

# DONALD LIVINGSTON

## FRONT-END WEB DEVELOPER

939 E. 9400 South, Sandy UT, 84094

Phone: 801-971-2482

Email: donlivingston@gmail.com

Website: www.donaldlivingston.com

## SUMMARY

I'm a professional Front-End Web Developer and Interface Designer. I pride myself on producing clean, readable, maintainable code, as well as attractive and usable web designs. I excel in balancing my "right-brained" creative half with my "left-brained" logical half, and I'm obsessive about learning new technologies and techniques.

## EXPERIENCE

### MRM/McCann

(October 2017 – June 2018)

*Front-End Developer*

I worked on multiple projects for several clients including Cisco, Panasonic, Verizon, and Fitbit. I created product and promotional landing pages as well as interactive web applications. Frameworks and libraries used include: Foundation, Bootstrap, React.js, Mithril.js, and Mapbox

### Freelance Contractor

(October 2016 – October 2017)

I've worked on multiple short-term projects for several different companies. Projects have included website rebuild/redesign, new application design, and implementing new features and fixes for both internal and public-facing web applications. Clients I worked for include: Career Step, Equitable Life & Casualty, AAPC, and Hi-Tech Refrigeration.

### Maverik Inc.

(February 2016 – September 2016)

*Senior App Developer*

I created and maintained several Maverik company web sites and applications. Including a complete rebuild of an internal Maverik Real Estate Management app, updates to the Maverik Rewards Manager app, and changes to Triton (the internal store management site).

### TCS Technologies

(June 2015 – November 2015)

*Front-End Web Developer & Mobile Project Manager*

I lead the development of a responsive design solution for a suite of e-commerce Websites. I created several prototypes and test layouts and implemented several changes to transition to a Responsive Web Design.

### ZAGG Inc.

(September 2012 – October 2015)

*Front-End Web Developer*

I worked on numerous projects including multiple product launches, moving the site to a Responsive Web Design, and a migration to the Magento e-commerce platform.

### Overstock.com

(September 2010 – February 2012)

*Front-End Web Developer*

I worked on a multitude of holiday, sale, and promotional web pages. I designed web banners and promo images. I also worked on the maintenance and layout of the site's continuously evolving content.
